

Law Office of Karen J. Sloat, APC

Labor and employment attorney Karen Sloat and her team at the Law Office of Karen J. Sloat, APC (“LOOKS”) have a mission to serve clients with excellence. Everything they do is focused on “Caring for Clients While Pursuing Justice.” Karen came to the Coachella Valley over 20 years ago, bringing her legal expertise and experience in over 20 different practice areas of law, as a licensed attorney in three states. After a short time practicing in our Valley, she realized that small to medium-sized employers and disadvantaged, underserved employees here needed affordable, but exceptional, legal counsel and representation. With her valuable litigation experience, Karen formed LOOKS to take on the Goliath opponents, quell the fears of clients who could lose everything, and fill the gap in the legal community.

Karen is passionate about employment law because almost every worker in California is an employee or employer who needs help to understand statutes, regulations, caselaw and rules that govern how we all work. Many need critical advice on how to handle stressful lawsuits. At LOOKS, we love to explain the laws, train on best workplace practices, and solve workplace problems that could ruin relationships and careers, if not addressed. We get excited about turning unjust, horrible situations – whether pre-litigation or in litigation – into “justice for all.” Our core motivation is providing superior legal services to employees and employers, who need strong advocates and wise, knowledgeable legal counselors. When employers do not know how to follow the laws, they make assumptions or mistakes and then get sued – often losing the business that was their life-long dream. When employees do not know their rights, they often don’t receive proper wages for their hard work or suffer in a hostile work environment, without hope of a fix.

By representing both employers and employees, this unique law firm team comes to the rescue! The Team at LOOKS brings unparalleled savvy and strategy to every dispute and can advise individuals and businesses on complex employment issues with ease. Let us share with you our passion about your employment law issues. We offer many free consultations, complimentary handbook and policy reviews, flat fees on Workplace Solutions packages, contingency fee arrangements for many individual clients, and reasonable hourly rates for billed work.
